OVERVIEW

Short Introduction from Founder

Best Brothers Group of Companies was set up more than five years ago, and ever since it has grown to become one of the leading companies in automatic doors, security cameras, access control, and intercom systems.

Keeping our vision, "value for money & client satisfaction" as a compass, Best Brothers Group of Companies evolved geographically during the last decade, by expanding and servicing areas outside the GTA. The number of high profile clients serviced annually today has increased dramatically than we serviced on an annual basis when we first started up. Through continuous investments in trending products and services, Best Brothers Group of Companies has positioned itself today as one of the leading services for automatic doors, security cameras, access control, and intercom systems.

Best Brothers Group of Companies is one of the few organizations that can offer all over Ontario a full spectrum of services in construction with flexible and efficient solutions, as a one-stop supplier.

We invite you to share our vision and benefit from our expertise, professionalism, flexibility, personalized approach, and comprehensive product portfolio.

In the following pages, we hope that we will give you an overview of our organization, history, services, and key persons and you will give us the opportunity to examine together the areas where we could work on a fruitful and mutually beneficial basis in the future.
